

Recommended Preventive Screenings

Please discuss these important health screenings with your PCP. If you have already had the screening prior to joining Family Practice Medical Group of San Bernardino, Inc., it's important that your physician notes this in your medical record and has the information needed to acquire the results of your test from your previous physician.

Childhood immunizations (0 – 2 years old)

- **Breast Cancer screening (Women - 40 – 69 years old)**
- **Chlamydia screening (Sexually active women 15 – 24 years old)**
- **Colorectal cancer screening (All persons 50 – 75 years old)**
- **Cervical cancer screening (Sexually active women 21 – 65 years old)**
- **HGBA1c test (For those persons with diabetes, 18 – 75 years old)**
- **LDL-C (Lipoprotein screening for those persons with diabetes or cardiac conditions, 18 – 75 years old)**
